**CENSUS OF THE COMMONWEALTH
OF AUSTRALIA, 30TH JUNE, 1954**

VOLUME II. - VICTORIA

**PART I. - ANALYSIS OF POPULATION
IN LOCAL GOVERNMENT AREAS, ETC.**

PREPARED UNDER INSTRUCTIONS FROM THE RIGHT HONORABLE THE TREASURER,
BY
S.R. CARVER, ACTING COMMONWEALTH STATISTICIAN

CENSUS OF THE COMMONWEALTH OF AUSTRALIA

30th June, 1954

VOLUME II.

VICTORIA

PART I. — ANALYSIS OF POPULATION IN LOCAL GOVERNMENT AREAS AND IN
NON-MUNICIPAL TOWNS (1,000 PERSONS OR MORE)

PREFACE

This publication shows, for the State of Victoria, the numbers of males and females in each City, Town, Borough and Shire, and in each unincorporated town with 1,000 persons or more, classified according to the characteristics of the population recorded at the 1954 Census. The characteristics dealt with in the following pages are:— Age, Conjugal Condition, Birthplace, Period of Residence in Australia (of persons born outside Australia), Nationality, Religion, Industry and Occupational Status.

This is the second Part issued of the five Parts which will constitute the complete Census Volume for the State of Victoria. Part V. — Population and Occupied Dwellings in Localities has already been issued, and the remaining three Parts, which will be issued as the relevant information becomes available, will be entitled: Part II. — Cross-classifications of the Characteristics of the Population; Part III. — Analysis of Dwellings in Local Government Areas and in Non-municipal Towns; and Part IV. — Cross-classifications of the Characteristics of Dwellings and of Householders. A similar Volume is being prepared for each State, for the Territories, and for Australia as a whole.

The foregoing arrangement, which provides for the progressive issue of Census information for each State, and a separate volume for convenient reference to all information published for a State, is a departure from previous practice when a series of approximately 30 Census Parts was published, some dealing specifically with data for individual States and others presenting both State and Commonwealth details in respect of a single characteristic of the population or of the dwellings.

At previous Censuses a series of 25 preliminary Census Bulletins was published giving particulars of population and dwellings in summary form for each State and Territory, but it is not proposed to repeat this issue for the 1954 Census and only a few preliminary Bulletins will be published as the need arises.

As for the 1947 Census, provision has been made for the issue of a number of supplementary statements in mimeograph form. A list of the 1954 Census publications already issued is shown inside the back cover of this Part.

Explanatory Notes relative to the method of presentation of data in this Part, and to Statistical Divisions, Non-municipal Towns, and various other matters follow the Table of Contents. Following the Explanatory Notes are Summary Tables showing the total numbers of the population in the various Cities, Towns, Boroughs and Shires and Statistical Divisions throughout Victoria.

S.R. CARVER

EXPLANATORY NOTES

This Part contains particulars of the population of each City, Town, Borough and Shire in Victoria according to various characteristics of the population, and corresponds to Part II. — Analysis of Population in Local Government Areas, Victoria, of the 1947 Census.

The method of presenting data herein differs from that adopted in the 1947 Part, in that (i) detailed information is provided for the first time for Non-municipal Towns with a population of 1,000 persons or more, (ii) Cities, Towns, Boroughs and Shires are arranged in alphabetical order within Statistical Divisions and not in alphabetical order only, and (iii) particulars are given for males and females in the same table, instead of in separate tables, thus facilitating the addition of totals for persons.

The provision of separate details for Non-municipal Towns of 1,000 persons or more (i.e., towns not separately incorporated for purposes of local government, but whose boundaries were specially determined for Census purposes) enables the inquirer to obtain a more realistic sub-division of population and dwellings of the State into urban and rural than was possible from the results of previous Censuses. The term "Urban", as applied to Victoria at the 1947 Census, referred to the Metropolitan Area of Melbourne and to all corporate Cities, Towns and Boroughs outside that area. In 1954, the term was extended to cover, in addition, all towns with a population of 1,000 persons or more. "Rural" relates to the remainder of the State.

For the Urban Areas of Ballarat, Bendigo and Geelong separate details are shown for the component local government areas or parts thereof. In addition, particulars for the entire urban area in each case are shown in the State Summary at the end of each table.

The arrangement of Census data for Cities, Towns, Boroughs and Shires into Statistical Divisions identical with those used in State statistical publications has substituted a series of broad geographical groupings for the former arrangement in alphabetical order. Following these Notes, however, there is an alphabetical list of Cities, Towns, Boroughs and Shires, showing the total numbers of males, females and persons in each, and also the totals for each Statistical Division and the Metropolitan Area of Melbourne.

The classification into Statistical Divisions has involved the splitting of certain Shires into two parts, and in such cases particulars are shown in each of the two Divisions concerned (the Metropolitan Area of Melbourne and the Central Statistical Division) for the respective part of the Shire within that Division, an explanatory note also being added. The Shires concerned are as follows :— Broadmeadows, Eltham, Fern Tree Gully, Frankston and Hastings, Lillydale and Werribee.

A map showing the location and composition of each Statistical Division, and a detailed map of the Metropolitan Area of Melbourne are inserted at the end of this Part. There is also an index to facilitate reference to any local government area or town for which particulars are shown.

The local government system in Victoria consists of separately incorporated Cities, Towns, Boroughs and Shires, which include within their boundaries the whole area of Victoria, except for a very small proportion which is not incorporated. For Census purposes local government areas were, in general, as constituted at 30th September, 1953.

The term "Migratory" used in the following tables refers to persons not elsewhere enumerated who at midnight between 30th June and 1st July, 1954, were travelling on ships in Victorian waters or on long-distance trains.

Particulars of full-blood aboriginals are excluded throughout.

Because of the limitations of space and the need for uniform presentation of data, it has not been possible to publish more detailed information in each table of this Part. This applies particularly to the tables on age and industry, and in lesser degree to the tables on birthplace and nationality. Information is available in much greater detail, and will be published in Part II. — Cross-classifications of the Characteristics of the Population.

For the first time in Australian Census procedure all cases of ages omitted from the Census Schedule have had an age allocated under a system which is fully explained in the Statistician's Report.
